Rex Club is more than just a British headwear company. We are a family, a team, a club which everyone can be a part of. Rex Club Sports Headwear aims to provide the best quality hats for grassroots to professional teams around the UK and beyond. We'll work with you to design and produce the perfect range of caps and beanies to represent your team.

We believe in our quality and that is why the caps we make for professional athletes are the same that we create for amateur sides, and the exact same that fans can buy in club shops. We want to create hats that you are proud to wear and our passion for headwear means that if we wouldn't wear it ourselves it doesn't leave our workshop.
